Call List for July 26, 2018

(Suggestions Prepared by Elizabeth Conner)

Oppose Budget Cuts to Medicare, Medicaid, and Social Security

Summary: On June 21, the House committee finalized a budget proposal that cuts trillions of dollars in funding from Medicare, Medicaid, and Social Security over the next 9 years. Called “A Brighter American Future”, it promises to balance the federal budget by slashing Medicare by over 500 billion dollars, gutting Medicaid and other health programs by 1.5 trillion and putting in place per capita spending limits and block grants that often lead to states massively de-fund healthcare coverage. It also proposes adding or upping work requirements for adults on Medicaid, food stamps and welfare. The House GOP budget would also cut Social Security by 4 billion dollars by restricting unemployment benefits and disability insurance.

The next step is a floor vote for House approval. Representatives need to hear from their constituents that just like ACA, the social safety net of Medicare, Medicaid, and Social Security must also be funded and protected.

Keep Work Requirements for SNAP Out of the Farm Bill

Summary: In mid-July, the House and Senate both passed their own versions of the Farm Bill. Unlike the House bill, the Senate version does not include work requirements to receive SNAP benefits. The House is now convening a conference committee to reconcile their bill with the Senate's and a tough fight is expected.

The Supplemental Nutrition Assistance Program (SNAP) helps over 40 million low-income Americans purchase food. Over 60% of SNAP recipients are children, adults over 65, or adults with disabilities. According to research, reduces poverty and food insecurity and leads to lasting improvements in recipients' health. Local economies also benefit from SNAP; a 2010 USDA analysis estimated that for every \$1 dollar spent on SNAP benefits, \$1.79 was reinvested into the economy.

The Farm Bill is reauthorized by Congress every five years. For the first time, House Republicans have added work requirements to the legislation: the millions of people who use SNAP will now need to either have a job or attend job training classes for 20 hours a week. **Let's stand up and speak up against this attempt to increase food insecurity and financial hardship for so many in our country!** We'll call Representatives who are on the conference committee for the Farm Bill; the Senate members of the committee haven't yet been named.

Call: Sen. Feinstein (D-CA): D.C. Office: (202) 224-3841; SF: (415) 393-0707; LA: (310) 914-7300;

A suggested script for Senators Feinstein and Harris, and Rep. Huffman:

Hi, my name is __ from [city, zip]. Please urge Rep./Sen. _____ to vote against any compromise legislation of the Farm Bill that includes work requirements to get SNAP benefits. [SNAP provides critical support to working families during tough times, and restricting access will increase poverty and hurt local economies.] Can you tell me what Sen./Rep. __ is doing on this issue? Thank you for taking my message.

Reunite Families Separated at the US Border & Ensure Legal Representation for Immigrant Children

Summary: The more than 2,600 children who were separated from their parents at the border as part of the GOP Administration's "Zero Tolerance Policy" are now going through immigration hearings. Since seeking asylum isn't a crime, the usual requirement for court-appointed attorneys isn't in place. So children as young as 3 years old, who are dealing with the trauma of being separated from their families, are left to represent themselves in immigration court. Some are too young to know their parents' full names or where they are from.

These children must be reunited with their families. And in the meantime, we must ensure they have legal representation to give them a fair chance at asylum. Congress has the authority to pass legislation that would require court-appointed legal representation for all minors going through immigration hearings. **Let's stand with these children and call our representatives to tell them the current situation is unacceptable,** and they need to quickly develop and pass legislation that affords these children appropriate legal representation.

Call: Sen. Feinstein (D-CA): D.C. Office: (202) 224-3841; SF: (415) 393-0707; LA: (310) 914-7300;

Hi, my name is __ from [city, zip]. I'm calling to urge Sen./Rep. ___ to take action to help the children separated from their parents at the border who are going through immigration hearings without any legal support. Meanwhile, All 49 Senate Democrats signed on to cosponsor S. 3036, the Keep Families Together Act, Feinstein (D-CA), which would allow separations only if the children have been trafficked or abused by their parents. Although the policy is on 'hold', we still need this bill and we only need two GOP to sign on. So, let's call the ones who've spoken out against the separation policy and ask them to sign on.

Governor Brown: Find Funding to Create the Great Redwood Trail, SB 1029

Summary: Great news! Senator Mike McGuire's SB 1029, the Great Redwood Trail Act recently passed the California Senate by a unanimous vote. This bill would dissolve the North Coast Railroad Authority (NCRA), and divide the 300-mile-long right-of-way in half. The Northern segment, from Willits to Arcata, will be transferred to the newly created Great Redwood Trail Agency which will begin rail banking the right-of-way. The Southern segment will be transferred to the Sonoma Marin Area Rail Transit to run passenger and freight trains, and build the southern section of the Great Redwood Trail. However, the NCRA has about \$10 million dollars of debt which must be paid before the trail plan can move forward. The next step is for Governor Brown to find the money in the budget for this. Let's join others and call on Governor Brown to fund this new trail!

Call: Governor Brown: (916) 445-2841 (Press 6 to get a human, and leave message).

Hi, my name is __ from (city, zip). Please ask Governor to support SB 1029, the Great Redwood Trail. [It's urgent that we pass the bill this year because it's the first time in 30 years that all the parties are at the table. It will cost more in the future, and the opportunity to negotiate and settle may be lost.] Thank you for taking my message.

Protect Our Public Lands: Oppose the "Ending Duplicative Permitting Act"

Summary: H.R. 6107 would end the need for a 'public lands permit' when a private company drills on private land into resources that lie underneath the surface on public lands if they already have a permit to drill. Currently, a 'public lands permit' is needed to take subsurface resources that lie within public lands in order to protect these lands and resources. H.R. 6107 is currently on the House floor and can be voted on at any time.

Provide Paper Backups on All US Voting Machines

Summary: Safe and free elections run credibly by individual states is one of America's core ideals, yet **today about one of four Americans vote on touchscreen voting machines which produce no paper receipt.** In March of 2018, the Senate Intelligence Committee issued a series of recommendations for securing elections, including mandating paper ballots, ensuring safe storage of ballots, and disconnecting voting machines from the internet. These security measures are vital since the top producer of US voting machines installed remote access software on an unknown number of their election management systems. And these measures are even more critical as other countries and individuals have threatened our voting system and demonstrated their ability to hack US voting machines in only seven minutes.

Protecting American Votes and Elections Act, S. 2261, would eliminate paperless voting machines and provide grants to states to switch their voting systems to ones providing paper receipts and records. This bill, co-sponsored by Sen. Harris, has been read twice and now sits in the Rules and Administration Committee. **Congress need to take immediate action to secure our voting systems!** California already has paper ballots on all machines, but let's call to make sure CA is doing all it needs to do to protect our vote!

Restrict Trump's Nuclear Launch Authority

Summary: Last Sunday night, Trump tweeted in all caps that Iran "WOULD SUFFER CONSEQUENCES THE LIKES OF WHICH FEW THROUGHOUT HISTORY HAVE EVER SUFFERED BEFORE." We have *got* to rein in Trump's nuclear first strike authority before his mental instability leads us into an unnecessary war. Currently, like past presidents, Trump has the authority to launch nuclear strikes, including first strikes on countries that have not attacked the US, without approval or even review by Congress.

Sen. Ed Markey and Rep. Ted Lieu introduced S. 200 and H.R. 669, respectively, to prevent a president from launching a nuclear first strike unless Congress has passed a declaration of war. **These bills send a clear message that the US will not be a nuclear aggressor.** Senators from both major parties have raised concerns about Trump's tweets, temper and treatments of allies and 'enemies', and so this is a good time to call in support of these bills. Let's thank Sen. Feinstein and Rep. Huffman for co-sponsoring them, and ask Sen. Harris to co-sponsor as well. Then let's call on GOP Senators on the Foreign Relations Committee to support S. 200.
